

# Retire at 12

(with an upgrade to premium efficiency A/C)

[www.premiumcooling.com](http://www.premiumcooling.com)

If your air conditioning system is more than twelve years old, it's time to let it enjoy a well-earned retirement.

Upgrading to a premium efficiency A/C system can save you 10–25% on your summer cooling bills. New AC units can offer a positive return on investment, too. See Energy Savings Calculators on the program website for details.

*Download an incentive schedule, view current promotions, and reserve rebates for 2010-12 at [www.premiumcooling.com](http://www.premiumcooling.com).*
