NOTES

Minimum Contractor Requirement: ACCA Assured Contractor OR EPA ENERGY STAR® Service & Product Provider, completion of 4-part IHACI QI/QM training OR installing technicians hold ICE, NATE, AABC, NBI, NEBB, TABB or state recognized Journeyman Mechanic certification. Incentives are additive.

Please refer to the ACCA 5 Standard for complete details regarding acceptable procedures and documentation.

Permits required in compliance with local regulations. See site eligibility and project eligibility limitations in program Participation Agreement.

PERMIT NOTE: In accordance with California Public Utilities Code section 399.4(b), the customer (or their contractor) must provide SDG&E proof of permit closure before SDG&E will pay any rebate or incentive for the purchase or installation of central air-conditioning, heat pumps, or related fans.

For a reservation, visit <http://www.premiumcooling.com>. Reservations do not guarantee funding or approval of final equipment selection. Customers must provide reasonable access to program inspectors and/or measurement and evaluation contractors for verification of equipment installation.
