

2018 Services Incentive Schedule

Program ends December 31, 2018 or when funds are no longer available
Restrictions apply. See www.PremiumCooling.com for program terms and conditions

One-Time (Silver) Tune-up

EE Tasks Eligible for Incentives	Qualified Unit Size			
	Under 3 tons	3-5 Tons	6-25 Tons	Over 25 Tons
Coil Cleaning (Evaporator and Condenser Coils)	\$22.00	\$72.00	\$90.00	\$90.00
Fan Maintenance	\$22.00	\$22.00	\$31.00	\$40.00
Refrigerant System Test Only	\$22.00	\$22.00	\$31.00	\$40.00
Refrigerant System Service (includes test-in and test-out)	\$48.00*	\$139.00	\$220.00	\$283.00

All Silver Tune-up services submitted after sixty days from initial test date may require one hundred percent inspection. Incentive payments may be held until all inspections have been completed. Contractors must submit data through a participating Verification Service Provider.

* Paid by the half ton

3-Year (Gold) Quality Maintenance

Tasks Eligible for Incentives	Incentive Structure			
	Set-up and Year 0	Year 1	Year 2	Year 3
Qualifying Unit – up to \$3,836 per unit	\$125.00 and 20% of total incentive	25% of total incentive	35% of total incentive	20% of total incentive

Gold Baseline Performance incentives are only available for units where the customer purchases a qualified service agreement and QM Addendum, and where units successfully meet Minimum Performance Levels prior to payment of any incentives.

Note: Site must have an active account for 5 years after the services are performed. Overpayments will be deducted from future payments.

Incentive levels and eligibility criteria are subject to change without advanced notice. In the event that rebate amounts or terms change for products or services offered during the program period, the order/purchase/installation date will be used to determine product eligibility and the application submission date will be used to determine rebate amount.

For reservation assistance, contact CLEARResult at (888) 369-1608 or visit www.PremiumCooling.com

When non-utility supply is involved, any energy savings for which incentives are paid cannot exceed the net potential benefit provided to the utility. Non-utility supply, such as co-generation or deliveries from another commodity supplier, does not qualify as usage from the utility (with the exception of Direct Access customers or customers paying departing load fees for which the utility collects PPP surcharge.)
