FREE

Premium Tune-up

from participating HVAC contractors.

- This at no cost service will help your commercial rooftop HVAC units achieve optimal performance.
- Reduce Energy Usage
- Improve Indoor Comfort
- Extend the Life of HVAC Equipment
- The **Premium Efficiency Cooling Program** goes beyond typical maintenance practices by working with trained contractors to promote comprehensive energy efficiency tune ups and maintenance services.

Hurry! Program ends December 31, 2018 or when funds are no longer available.

What is the Premium Efficiency Cooling Program?

The Premium Efficiency Cooling Program promotes energy efficiency through proper maintenance of commercial A/C equipment. The program is available to commercial customers in the San Diego Gas & Electric® service area.

Contact a participating contractor now to find out about maintenance agreement incentives and schedule your at no cost visit!

To learn more, contact CLEAResult at 888-369-1608 or visit www.premiumcooling.com

At no cost HVAC tune-up redeemable only through participating contractors. See premiumcooling.com for details. No purchase required for tune-up services. Maintenance agreement purchase required to qualify for additional incentives and services. Only valid for SDG&E® commercial customers who have not participated in the last five years. Other restrictions may apply.

The Premium Efficiency Cooling Program is funded by California utility customers and administered by San Diego Gas & Electric Company (SDG&E®) under the auspices of the California Public Utilities Commission, through a contract awarded to CLEAResult. California customers who choose to participate in this program are not obligated to purchase any additional services offered by the contractor. The trademarks used herein are the property of their respective owners.
